

## Information letter

Currently, the use of productive learning (project method) has become widespread. The ability to work on a project is an important quality of a modern student. And the sooner he gets acquainted with the project activity, the greater his chances of achieving significant results in the professional activity he will have. Taking into account the great interest of students in the project activity, we would like invite everyone to participate

**in the international scientific-practical conference  
"FROM A SCHOOL PROJECT – TO A PROFESSIONAL CAREER".**

In 2019 the fifteenth conference will be held.

In 2018, the conference statistics was as follows:

a total of 706 are registered, among them

- 375 students
- 248 project managers
- 69 participants on-line sections for teachers
- 14 participants in the UNESCO section.

The geography of the conference in 2018 was represented by the following participants:

- foreign countries - Germany (Coswig, Biederbach), Azerbaijan (Baku), Belarus (Old roads), Moldova (Chisinau, Cimisia),
- 27 regions of Russia, including the Republic of Bashkortostan, Sakha-Yakutia, Tatarstan, Udmurtia,
- 18 districts of the Saratov region.

The students from Penza, Volgograd, Samara, Ulyanovsk, Tolyatti and other cities of Russia and Saratov region were guests of the lyceum.

Traditionally, the representatives of the UNESCO Associated Schools Network participate in the conference.

The conference “From a school project – to a professional career” is a competition of projects for talented and goal-oriented students. The conference aims to develop the creative potential of students; identifying gifted children and introducing them to research, inventive and creative activities in various fields of science, culture and technology.

The main sections of the conference are:

- Fundamental laws of nature (physics).
- History: from ancient times to our days.

- History: local lore.
- The art of the word.
- The art of the word (linguistics).
- World without Borders (English, German).
- Man and society.
- Man in the modern world (social projects).
- Actual problems of natural science:
  - chemistry,
  - biology,
  - ecology,
  - human ecology.
- In the world of mathematics.
- In the world of computer science and information technology.
- Robotic technology.
- UNESCO World Heritage.
  - Project activities (section for teachers).
- The UNESCO Associated Schools international project as a factor in expanding the educational environment (section for teachers).

The main goals and objectives of the conference:

- popularization of independent intellectual and creative activity of schoolchildren;
- creation of conditions for creative self-realization and professional self-determination of students who embodied their knowledge and abilities in real projects;
- formation of socially active life position of the younger generation;
- drawing public attention to the problems of preserving and developing the intellectual potential of modern society.

The conference is held for the students of 5-11 grades of secondary schools of the Russian Federation and other countries; project managing teachers; participants of the UNESCO Associated Schools project.

The organizer of the conference is the Lyceum of Natural Science (Russia, Saratov) in cooperation with the UNESCO International Department of the University of Management “TISBI” (Russia, Kazan) with the support of the Ministry of Education of the Saratov Region.

Lyceum of Natural Science, being a school member of the UNESCO Associated Schools project, a member of the INEPS International Network of Productive Schools (Bulgaria, Germany, Greece, Spain, Ireland, Portugal, Russia, USA, Finland, Sweden, etc.), promotes the participation of foreign partners in the conference .

You can take part in the conference by either a personal presentation or a correspondent presentation.

The correspondent presentation runs from January 1, 2019 to March 10, 2019. The personal presentation of the conference will take place on March 27-28, 2019. The personal presentation takes place for two days and includes presentation of children's projects and the Ceremony of Awarding of the participants.

To participate in the conference, it is necessary to register online at <http://www.lien.ru/conf/registration/> and post a description of your project. If you want to present your project yourself, you need to inform the organizing committee of your decision by e-mail.

All conference participants and project managers receive certificates of participants. The best projects will be awarded with diplomas. Certificates and award materials will be available for downloading in the members personal account after the end of the conference.

To the participants of the personal presentation: transportation costs and expenses for living in the Saratov city are held by the directing party.

The section for teachers "Project activities", and the section "International project" UNESCO Associated Schools " as a factor in expanding the educational environment" are held in the form of an Internet conference. To participate, you are to register at <http://www.lien.ru/conf/registration/> and post an article describing your experience in these fields.
